PE – Outside:

For this week's work, you'll need something to use for hurdles, a stopwatch & a measuring tape.

Tuesday:

Day 1 - The Sprint

Pick a safe location where you can run around 60m, ideally in a straight line. Mark out the starting and finishing lines. Get someone else to time you with the stopwatch as you sprint the 60m as fast as you can. Try to beat your time with two or three more 60m sprints. Would anyone else in your house like to practise the sprint?

Wednesday:

Day 2 - The Hurdles

Design a simple racetrack for yourself (in the garden or somewhere else). Pick out 5 or 6 things that you can safely jump over (e.g. a piece of wood, some toys, a chair on its back, a box, a hole in the ground, a block, a bike...) and lay them out in different locations along your racetrack. With someone else timing you with a stopwatch, run the course and leap over each of your 'hurdles' as you go. What was your time? Can you improve on it? How could you improve the course? Who else wants to try it?

Thursday:

Day 3 – Jumps

*a) **The Long Jump** - Lay a marker on the ground in your garden or elsewhere. Move back 15 or 20 steps. Run towards the marker and immediately before it, leap forward as far as you can. Someone else watches where your foot lands and measures from the marker to that spot with a measuring tape. Try at least 4 more long jumps and measure them.*

*b) **The Triple Jump** - Similar to the long jump, run quickly to the marker and leap forward. But this time you land on one foot, push yourself forwards into another leap & land on two feet together. Try at least 4 more triple jumps & measure them.*

Friday : Circuit: 10 minutes exercise – outside if possible: Same circuit as last week:

You can download the app Interval Timer – which will allow you to set your timer to 40 seconds and then 20 seconds rest – with 10 repetitions

40 seconds movement and 20 seconds rests x 10

- Running on the spot
- Star jumps
- Boxing punches and jumping your feet
- Squats
- Burpees (every one of you will be better at these than me – my children laughed at me)
- Sit down and imagine you are on a rowing machine – row back and forth
- Jumping from side to side – elbows bent with arms in front of you, hands clasped
- Climbing the rope – high knees up and down as you imagine pulling a rope above you with your arms
- Running with your knees high in front of you
- Running / skipping around the garden

Well done!!!! Take a big drink of water
