

# Updated Risk Assessments to minimise the risk of being exposed to Covid-19

The process involved consultation with all school staff.

## Methodology used for hazard identification and control

In line with the requirements of Safety, Health and Welfare at Work Act 2005 (section 19) it is the policy of the BoM in (Insert School Name) to address significant hazards and risks in the workplace, to assess the risks to safety, health and welfare and to control these risks as far as is reasonably practicable.

The Board is committed to the ongoing identification of hazards, the assessment of the appropriate risks and the introduction of controls to deal with them. In addition, staff are involved and participate in safety, health and welfare issues within the school and are encouraged to identify and report any potential hazards that may exist and to ensure that a risk assessment is carried out.

This revised Risk Assessment includes all relevant updates and necessary control measures to minimise the risk of staff and others being exposed to Covid-19 and these will be incorporated into the Safety Statement for St. Projects in line with requirements of section 20 of the 2005 Act.

It is envisaged that additional reviews will be undertaken on a regular basis and in line with Government and public health advice to ensure that all information remains accurate, that controls are appropriate and where necessary risks are reassessed.

A **hazard** is anything with the potential to cause harm to the safety, health or welfare of staff, students, visitors and contractors – a wet or slippery floor, an unguarded machine, stressful work, a blocked entrance, hazardous chemicals etc. Hazards may be classified as physical, chemical, biological, environmental or human.

A **risk** is the likelihood that someone will be harmed by a hazard and the severity of that harm.

## Control measures:

A control measure is an applied measure that reduces the level of risk. Control measures can be applied at the planning stage, can comprise physical measures, can be management issues and can include training. Good control measures will require a combination of some or all of these.

Who may be affected?	Identified Risks	<b>Risk Communication, Education and Training</b> Controls	Risk Rating with controls	Action implementation
<b>Staff</b>	<p>Spread of Covid-19 virus</p> <p>Persons currently deemed most at risk of complications if they catch the coronavirus are:</p> <ul style="list-style-type: none"> <li>• 60 years of age and over</li> <li>• have long-term medical conditions – i.e. heart disease, lung disease, high blood pressure, diabetes or cancer</li> <li>• pregnant women</li> </ul> <p>Known effects of the coronavirus:</p> <ul style="list-style-type: none"> <li>• A fever (high temperature of 37.5 degrees Celsius or above)</li> <li>• A cough - this can be any kind of cough, not just a dry cough</li> <li>• Shortness of breath or breathing difficulties</li> <li>• Loss of sense of smell</li> <li>• Loss of sense of taste or distortion of sense of taste</li> <li>• Death</li> </ul>	<p>The Board of Management will develop a response plan for the prevention and mitigation of Covid-19 following a risk assessment of the school facility. This plan will highlight the measures necessary to protect the health and safety of staff in re-opening and modifying the work arrangements within the school.</p> <p>The staff representative(s) will be properly consulted when developing and implementing the action plan for the prevention and mitigation of Covid-19 within the school and all staff will be informed about the measures being introduced, using specific risk communication and staff engagement approaches.</p> <p>The Board of Management will:</p> <ul style="list-style-type: none"> <li>✓ Ensure that all staff receive necessary training prior to returning to work</li> <li>✓ Provide posters, information and electronic message boards to increase awareness of Covid-19 among staff and pupils</li> <li>✓ Promote safe individual practices within the school campus</li> <li>✓ Engage with staff in providing feedback on the preventive measures and their effectiveness</li> <li>✓ Provide regular information about the risk of Covid-19 using official sources, such as government agencies (HSE, HSA, etc.) and the World Health Organisation</li> <li>✓ Emphasise the effectiveness of adopting protective measures especially good personal hygiene</li> <li>✓ Provide specific training in the proper use of PPE for staff, where required</li> <li>✓ Provide 5 CO2 Monitor for use in the mainstream classes</li> </ul>	Negligible	Board of Management Principal Staff
